

**STATEMENT OF WORK**  
**Feed Management (592)**  
**National Template**

**These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.**

---

## **DESIGN**

### **Deliverables:**

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices
  - a. Practice purpose(s) as identified in the conservation plan.
  - b. List all required and/or facilitating practices
  - c. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
    - i. The type of technology, or technologies, and/or feeding practices that will be used on the operation, and their intended outcome.
    - ii. Feed analyses and ration formulation information prior to and after implementation of feed management on the operation.
    - iii. Protocols for sampling and preserving feed ingredients, manure, and water, as applicable, prior to sending for analysis.
    - iv. The estimated, or measured, nutrient content of the manure prior to the implementation of feed management on the operation.
    - v. The estimated impact that feed management will have on manure nutrient content.
    - vi. The expected impact on pathogen content, odor, and GHG reduction of manure.
    - vii. Guidance for how often the feed management plan shall be reviewed and potentially revised.
    - viii. The quantities and sources of nitrogen and phosphorus that will be fed.
    - ix. Identification of the qualified feed management specialist who developed the plan.
    - x. Actions taken to reduce pathogens, odor, or Greenhouse Gases
2. Specification sheet provided to the client that adequately describes the requirements to apply the practice and obtain necessary permits.
3. Operation and maintenance plan
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations
5. Design modifications during application as required

---

## **INSTALLATION**

### **Deliverables**

1. Pre-application conference with client
2. Application guidance as needed
3. Facilitate and implement required design modifications with client and original designer
4. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during application.
5. Certification that the application process and materials meets design and permit requirements

---

## **CHECK OUT**

### **Deliverables**

1. Records of application
  - a. Extent of practice units applied
  - b. Actual materials used
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits
3. Progress reporting
4. Exit conference with client and contractor.
