

Surface Roughening (609) Certification			
Cooperator:		Field Office:	
Plan No.:		Location:	
Date:		Checkout By:	

Purpose of Practice:	
	Reduce soil erosion from wind and wind-borne sediment deposition
	Improve plant health by protecting the growing crops from damage by wind-borne soil particles
	Improve air quality by reducing the generation of airborne particulate matter.

Attach plan map which shows field numbers, soils, and acres.
