FIELD OFFICE TECHNICAL GUIDE NOTICE OK450-182

SUBJECT: Update to Section I, Cost List Revision for EQIP for Manure Transfer (634) practice. Release of revised standard Animal Trails and Walkways (365) and revised standard index.

Effective Date: Effective when received.

Explanation of Changes. There was an error in the original EQIP cost lists. The components for the Manure Transfer (634) practice were incorrectly put in as average cost in stead of as an incentive payment. This change only impacts offices using the manure transfer practice and components. Therefore new cost lists for use in Customer Service Toolkit will only be released to the offices participating in the statewide EQIP manure transfer funding. Others wishing a copy of the cost lists for use in Toolkit can obtain them from the internal Oklahoma website from the Conservation Programs quick link, under Conservation Program Press Releases and Conservation Forms for Downloading.

The Animal Trails and Walkways (365) standard had been updated to reflect national changes.

Filing Instructions. The index and pages that are removed can be discarded.
