FIELD OFFICE TECHNICAL GUIDE NOTICE OK450-176

SUBJECT: Update to Section I, Cost List Revisions for GP, GRP, EQIP-HPA, LAW, PL-534(FPO-WF03), PL-566(SWO-WF08), and SWCA

Effective Date: Effective May 5, 2004

Explanation of Changes. Attached are revised cost lists for the 2004 program for the remaining cost-share programs (except CRP) that were not updated in late April. All cost lists have been updated due to extreme increases in the cost of fence and steel pipe components. All cost changes are highlighted in the lists. Changes have been made to additional cost lists at this time to maintain consistency as much as possible in component costs across all programs.

The practice component definitions are being included in this release. However, the only changes to the definitions are a change in Rock Gabions/Rock Mattresses and the inclusion of a new component, Pump for Livestock Water Well, which will only be used within the Sugar Creek area of the Washita River PL-534 watershed program.

Please review the cost lists and the changes. Please report any errors, or omissions to the Zone Program Liaison or Suzanne Collier, Resource Conservationist, in the State Office.

Cost list files for use in Customer Service Toolkit for all programs will be automatically downloaded to field office servers the week of May 10th. They will be available from the internal Oklahoma NRCS website on May 5, 2004.

Filing Instructions. The index and pages that are removed will need to be archived only in offices that have ongoing funded contracts for that particular program. Print and file the index and the cost lists in Section I of the FOTG as instructed below for all programs applicable to your service area.
