FIELD OFFICE TECHNICAL NOTE NOTICE OK- 45

SUBJECT: Revised Plant Materials Technical Note OK-21.

Purpose: Distribute Revised Plant Materials Technical Note OK-21, Oklahoma Vegetation Establishment Guidelines. These guidelines will serve as the minimum specifications for all planting recommendations which, when developed in accordance with this Technical Note will meet Criteria for the Oklahoma Conservation Practice Standards listed below.

- Forage and Biomass Planting (512)
- Range Planting (550)
- Critical Area Planting (342)
- All other practices which refer to those listed above.

Overview of Changes: Several changes were made with this revisions and the entire technical should be reviewed. Some key changes include:

- Updated the example seed mix table to correct rates and calculations
- Added a statement related to meeting fertilizer specifications and when to consider adequate if rates do not meet the exact rates specified
- Added some species that were missing from previous version and updated varieties for some species
- Revised wording in Appendix 1 related to criteria for determining stand establishment for introduced grasses and legumes

Effective Date: Effective upon receipt.

Filing Instructions: Plant Materials Technical Note OK-21 can be accessed in Section I of the Oklahoma eFOTG website. Field offices should print and use when planning vegetative practices.

A handwritten signature in black ink that reads "Gary O'Neill". The signature is written in a cursive, flowing style.

GARY O'NEILL
State Conservationist
