FIELD OFFICE TECHNICAL GUIDE NOTICE OK450-181

SUBJECT: Release of Section I and Section II Updates, Including Revisions to the Tree/Shrub Establishment Worksheet (OK-CPA-4A), References List Index, and Maps, and Maps Index, Section II Climate Index, Maps, and State Climate Maps.

Effective Date: Effective when received.

Explanation of Changes. The Tree/Shrub Establishment Worksheet (OK-CPA-4A) has 7 separate worksheets that include an instruction page, a page for planning tree/shrub vegetation, a page for certification of tree/shrub vegetation established, and four examples pages, two showing the planning and certification of row plantings, and two showing planning and certification of plantation plantings. The forms are designed to automatically transfer some data entries from the planning worksheet to the certification worksheet and calculate final units applied. OK-CPA-4A will be posted under FORMS and eFOTG.

Several new maps have been developed by GIS to update the climate information in Section II of the FOTG. The state MLRA map has been revised to correlate joins between states according to national policy. The ODAFF Forestry Fire protection map has been updated with current information for reporting wildfires. A state topographic map has been added to the maps section.

Filing Instructions. The index and pages that are removed can be discarded. File the enclosures in Section I and Section II of the Field Office Technical Guide.
