

## **Construction Specification**

### **500. OBSTRUCTION REMOVAL**

#### **1. SCOPE**

The work shall consist of completion of removal of obstructions performed as outlined in this specification and the drawings.

#### **2. SITE PREPARATION**

All obstructions shall be removed from the work area and disposed of as set forth in Section 5. Reshape and regrade all areas disturbed by the obstruction removal so that they blend with the surrounding land features and conditions. Compact fill areas according to the requirements in Section 5.

#### **3. VEGETATION**

Vegetation, if required, shall be established at the locations shown on the drawings and/or staked in the field. Vegetation shall be of the type, species, mixture, quality, etc. as set forth in Section 5.

#### **4. EROSION AND POLLUTION CONTROL**

Construction operations will be carried out in such a manner that erosion and air and water pollution will be minimized. State and local laws concerning pollution abatement must be followed.

#### **5. ADDITIONAL CONDITIONS WHICH APPLY TO THIS PROJECT ARE:**
