

STREAM CROSSING

INSTRUCTIONS FOR USE OF SPECIFICATION 578

1. APPLICABILITY

Construction Specification PA578 is applicable to installation of a stream crossing.

This specification can be used in conjunction with, or independent of, CS PA580 and/or PA584.

2. ITEMS TO BE INCLUDED IN SECTION 7 AND/OR DRAWINGS

Items to be included in the Construction Specification Section 7 and drawings:

1. Typical cross sections; before and after
2. Profile(s) of stream
3. Size, type, and location of each treatment
4. Salient features, source, or manufacturer of all materials, including vegetation
5. Apparent property lines and owners
6. Method of debris removal (e.g. burn, spread, spoil)
7. Location of borrow and/or spoil areas
8. Access
9. Erosion and sediment control
10. PA One-Call information
11. Reference to other practice specifications (e.g. PA580, PA584), if applicable.
12. Any items that differ from those set forth in Sections 1 through 6.
