

## LIGHTING SYSTEM IMPROVEMENT

### INSTRUCTIONS FOR USE OF SPECIFICATION PA670

#### 1. APPLICABILITY

Construction Specification PA670 is applicable to installation of lighting system improvements, as set forth in the PA670 standard. It applies to site specific designs which may include component standard detail drawings and specifications prepared by others and concurred in by NRCS.

#### 2. ITEMS TO BE INCLUDED IN SECTION 6 AND/OR DRAWINGS

- a. Material requirements, including but not limited to the type, quantity, and quality of:
  - (1) wiring
  - (2) fixtures
  - (3) connectors
  - (4) controls
  - (5) mountings
  - (6) housings
- b. Applicable dimensions and fixture arrangements.
- c. Safety components (e.g., grounding, fault protection, and dust protection)
- d. Reference to other practice specifications (e.g. PA313), and/or specific manufacturer(s), if applicable.
- e. Specific certifications that are required by installers and/or code enforcement.
- f. PA-One-call if excavation is required.
