TECHNICAL GUIDE NOTICE NUMBER 232

Purpose. To update Agrichemical and Handling Facility (309) Construction Specification and (309) Instruction for Use.

Effective Date. This notice is effective upon receipt.

Explanation of Changes. The following information has been revised for:

Agrichemical Handling Facility (309) Construction Specification– The materials criteria for portland cement and the section related to concrete mix have been corrected to match the Standard. This included strength, type of cement, and required supplementary cementitious materials. Criteria for wood fasteners includes use with treated lumber. The curing section has been redone to allow curing compound as an acceptable method.

Agrichemical Handling Facility (309) Instructions for Use – The materials checklist was modified to reflect the requirements found in the standard for strength and cement type. References were added if users desired additional guidance information.

Access Instructions. The official version of the FOTG is what appears in Pennsylvania's FOTG.

The entire Pennsylvania FOTG can be accessed at the following web site:

http://efotg.nrcs.usda.gov/efotg_locator.aspx?map=PA.

You can access the Section IV Table of Contents directly at the following web address:
