

EPA Level 3 Eco-regions of the Southeast -for local ecotype plant material

For restoration projects in SC using local ecotype plant material (seeds, plugs, or containerized plants), parent plant material should originate from 8.5.1 (Middle Atlantic Coastal Plain), 8.3.5 (Southeastern Plains), 8.3.4 (Piedmont), or 8.4.4 (Blue Ridge); and should be planted in the same Level 3 Eco-region.
