

**NATURAL RESOURCES CONSERVATION SERVICE
CONSERVATION PRACTICE DOCUMENTATION GUIDE**

FIREBREAK

(ac.)
CODE 394

REQUIRED FORMS

- A. South Dakota (SD) Specification Sheet SD-ECS-9 if firebreak is to be constructed as part of a prescribed burn.
- B. If firebreak is being installed for the purpose of wildfire protection include details in the conservation plan narrative.
- C. South Dakota (SD) Specification Sheet SD-CPA-4 if a vegetative firebreak is planned.

OPTIONAL DOCUMENTS

None

PLANNING REQUIREMENTS

- A. Indicate the location of the firebreak on the conservation plan map.

PERFORMANCE

- A. If firebreak is part of a prescribed burn complete the pre-burn checklist portion of SD-CPA-4.
- B. Annually inspect firebreak installed for wildfire protection to make certain it is being maintained and record notes in the conservation plan.
- C. If a vegetative firebreak is being installed complete the applied portion of SD-CPA-4.
