

STATEMENT OF WORK (SOW)
WINDBREAK/SHELTERBELT RENOVATION (650)
SOUTH DAKOTA
CONTACT: GREG YAPP (605) 352-1238
ISSUED OCTOBER 29, 2004

These deliverables apply to this individual practice. For other planned practice deliverables, please refer to those specific SOW's.

DESIGN

Deliverables

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices:
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client.
 - c. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Determination of needed cultural measures including addition of new rows to maintain intended density and functions.
 - ii. Protective measures for plants to maintain intended functions including use exclusion.
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
3. Documentation of needed operation and maintenance.
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations.
5. Design modifications during installation as required.

INSTALLATION

Deliverables

1. Pre-application conference with client.
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications including applicable layout notes.
4. Application guidance as needed.
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all federal, state, Tribal, and local laws, regulations, and NRCS policies during installation.
7. Certification that the application process and materials meet design and permit requirements.

CHECK OUT

Deliverables

1. Records of application:
 - a. Extent of practice units applied.
 - b. Actual cultural measures/plant materials used and applied.
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits.
3. Progress reporting.
