**SOUTH DAKOTA TECHNICAL GUIDE (SDTG)
NOTICE SD-402**

SECTION II

Wind Erosion Index (WEI) of 134 or Greater Map for each County

A "WEI Index of 134 or Greater" map for each county has been placed in a folder for each county on eFOTG. These can be specifically found on eFOTG under the following folders:

- Section II
- Statewide Soil and Site Information
- 6. CNMP

These maps were developed to assist in determining the risk of phosphorus Loss to SD surface water resources per South Dakota Agronomy Technical No. 18. These maps show soils with WEI of 134 or greater.
