

OPERATION AND MAINTENANCE
Obstruction Removal (500)
Tennessee

Landowner/Operator: _____

Practice Location: _____

County: _____ Farm/Tract Number: _____

Prepared By: _____ Date: _____

Inspections and maintenance are required to achieve the intended function, benefits, and life of the practice. The landowner/operator is responsible to establish and implement an inspection and maintenance program. Items to inspect and maintain during the 10-year design life of the practice include, but are not limited to, the following:

1. Inspect after significant storm events and at least annually to identify repair and maintenance needs.
2. Fertilize as needed to maintain a vigorous vegetative cover, as appropriate.
3. Promptly repair eroded areas. Re-establish vegetation cover immediately where erosion has removed established vegetation.
4. When disposal of debris occurs on site, periodically check to ensure that the disposal site remains stable.
