Prepared By _____ Date _____

Inspections and maintenance are required to achieve the intended function, benefits, and life of the practice. The landowner/operator is responsible to establish and implement an inspection and maintenance program. Items to inspect and maintain during the first 20-years after the well is decommissioned include, but are not limited to, the following:

1. Inspect at least annually to identify repair and maintenance needs.
2. Repair any settlement or erosion that occurs; add fill and revegetate or resurface as needed.
3. Maintain mounding and/or water diversions to prevent concentration or accumulation of runoff water over the site.
4. Maintain vegetated areas in adequate cover; re-seed and mow as needed.
