

**STATEMENT OF WORK**  
**Prescribed Burning (338)**  
**Texas**

**These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.**

## **DESIGN**

---

### **Deliverables:**

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices
  - a. Practice purpose(s) as identified in the conservation plan.
  - b. List of required permits to be obtained by the client.
  - c. Practice standard criteria-related computations and analyses prepared by an individual with required certifications presented in a written burn plan including but not limited to:
    - i. Description of the burn area including present vegetation cover and location
    - ii. Objective and timing of burn
    - iii. Acceptable conditions for prescribed burn
    - iv. Actual conditions during the burn
    - v. Preparation of the area for burning
    - vi. Safety requirements and notifications
    - vii. Special precaution areas
    - viii. Firing technique
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
3. Identify fields where practice is to be applied on a farm or ranch plan map.
4. Operation and maintenance plan
5. Certification that the design meets practice standard criteria and comply with applicable laws and regulations
6. Design modifications during installation as required

Note: Job Sheet 338 Prescribed Burning will be required to document the Prescribed Burning Plan.  
Requires a planner certified in prescribed burning.

## **INSTALLATION**

---

### **Deliverables**

1. Pre-application conference with client
2. Verification that client has obtained required permits
3. Staking and layout (e.g., setbacks) according to plans and specifications including applicable layout notes
4. Application oversight as required
5. Facilitate and implement required design modifications with client
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation
7. Certification that the application process and materials meets design and permit requirements
8. The area is prepared for prescribed burning with firelanes in place, equipment on site during the burn, and sufficient personnel on site to conduct the prescribed burn.

Note: Job Sheet 338 Prescribed Burning will be required to document the Prescribed Burning Plan.  
Requires a planner certified in prescribed burning.

## **CHECK OUT**

---

### **Deliverables**

1. Records of application
  - a. Extent of practice units applied
2. Certify and document that all the criteria listed in the Design Deliverables meet NRCS standards and specifications and are in compliance with permits.
3. Exit conference with client and contractor.
4. Progress reporting

Note: Job Sheet 338 Prescribed Burning will be required to document the post fire evaluation of the burned area. Requires a planner certified in prescribed burning.
