

STATEMENT OF WORK
Dust Control on Unpaved Roads and Surfaces (373)
Texas Template

for construction on

GENERAL REQUIREMENTS

1. All engineering documents, drawings, certifications and designs shall be sealed by a Professional Engineer licensed to practice engineering in Texas.
2. All drawings will be formatted for full size plots (22"x34") or when readable half size - 11" x 17" are acceptable.
3. All documentation shall be generated in *.doc,*.pdf, *.dwg, or .xls format.
4. Two Copies of all documentation shall be furnished, one for the landowner, one for USDA-NRCS records
5. All USDA-NRCS documentation shall be furnished to the local (county) NRCS Field Office.
6. All electronic files will be placed on CD/DVD media

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

Note: Site-Specific Deliverable may be added as appropriate by the State Conservation Engineer.

DESIGN

Deliverables:

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client and regulations to be met
 - c. List of facilitating practices
 - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Targeted emissions and source
 - ii. Required emission reduction
 - iii. Reduction calculations, analysis, etc.
 - iv. Erosion calculation as needed
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
3. Operation and maintenance plan
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations
5. Design modifications during installation as required

Note: Site-Specific Deliverable may be added as appropriate by the State Conservation Engineer

Texas Template

INSTALLATION

Deliverables

1. Pre-installation conference with client
 2. Verification that client has obtained required permits
 3. Completed TX-EN-80A and TX-EN-80B if any excavation occurs.

 4. Installation guidance as needed
 5. Installation inspection (according to inspection plan as appropriate).
 - a. Actual materials used (Part 512, Subchapter D Quality Assurance Activities, 512.33)
 - a. Inspection records
 6. Facilitate and implement required design modifications with client and original designer
 7. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation
 8. Certification that the installation process and materials meets design and permit requirements
- Note: Site-Specific Deliverable may be added as appropriate by the State Conservation Engineer.

CHECK OUT

Deliverables

1. Records of application
 - a. Extent of practice units applied
 - b. Actual materials used
 2. Certification by a licensed Texas Professional Engineer that the installation meets NRCS standards and specifications and is in compliance with permits
 3. Progress reporting
- Note: Site-Specific Deliverable may be added as appropriate by the State Conservation Engineer.
