Mr. John Mueller  
State Conservation Engineer  
USDA-NRCS  
101 South Main Street  
Temple, Texas 76501

2/9/10

Mr. Mueller,

Mike's Water Well Service in Pampa, TX, respectfully requests that the attached drawings and subsequent solar panel rack be approved for use throughout Texas in all NRCS-assisted work utilizing NRCS-TX, General Specification, Photovoltaic (Solar) Powered Pumping Units, 533C.

These drawings and rack have previously been approved for NRCS-TX, Zone 1 use by Greg Sokora, Zone Engineer, in March of 2009. See attached letter.

All racks manufactured by Mike's Water Well Service have a sticker (see attached) labeled "SolaRack Solutions" attached to the Main Head Assembly, MH3-4.2, and have serial numbers located on the Outside Pivot Assembly, OP3-2.2 (see drawing, sheet 3 of 4). The serial number is in a date of manufacturing format, i.e. 10020901 – year, month, day, and the number of rack made that day.

This letter also serves to notify NRCS-TX that Brandon Voss is an authorized representative of Mike's Water Well Service. Brandon Voss may act on Mike's Water Well Service behalf with regard to these drawings and the subsequent solar panel rack.

Mike's Water Well Service manufactures this rack for marketing and sale by American West Windmill and Solar Company. Mike's Water Well Service also authorizes other contractors and/or landowners to install this rack without further permission.

If you have any questions or need further information, please contact me.

Respectfully,

Brandon Voss  
Mike's Water Well Service
