

Utilities Inventory

Instructions for use: Form TX-ENG-80A is to document known utilities in the area of the proposed conservation practice. **When mechanical excavation will occur, Form TX-ENG-80B must be completed by the cooperator (or designated representative) and returned to USDA-NRCS prior to the start of construction.**

Section I: Cooperator Information

Name:	Location:
I.D. No.:	Planned Practices:

Section II: Advisory Notice

The construction of conservation practices **could endanger life and property** due to the possible location of utilities within the work area. Additionally, **you could be personally liable for damages** to utilities caused by any construction or excavation activities. NRCS makes no representation on the existence or non existence of any utilities.

Section III: Known Utilities

Are above ground or underground utilities located near the proposed construction or excavation area? Include any waterlines, electric lines, telephone lines, gas lines, septic lines, irrigation lines, or other items that are on the operating unit. Yes No

III. Part B: Utilities Identified by the Cooperator (mark approximate location on map)

Type:	Utility Company:	Field number:

Type:	Utility Company:	Field number:

TX-ENG-80B will not be required for the following practice(s) which do not require excavation:

I have been furnished a **TX-ENG-80B form(s)**, and I understand its use and intent. I agree to complete a TX-ENG-80B form and return it to the _____ Field Office prior to the start of any construction involving excavation. **I have been informed that failure to return a completed and signed TX-ENG-80B form(s) to USDA-NRCS SHALL result in termination of NRCS technical and financial assistance on my conservation practice.**
