

**Forest Enhancement Bundle –BPI01 (Improves conifer forest health through prescribed burning and grazing management)**

**Enhancement Description**

This bundle of enhancement activities includes: PLT21-Forest stand improvement pre-treating vegetation and fuels preceding a prescribed fire, or PLT28-Prescribed burning to promote and enhance conifer forests and maintain a healthy understory, or PLT31-Forest stand improvement, prescribed burning-short return interval; and following four enhancements: ANM09-Grazing management to improve wildlife habitat, ANM11-Patch-burning to enhance wildlife habitat, ANM38-Retrofit watering

facility for wildlife escape and enhanced access for bats and bird species, and PLT02-Monitor key grazing areas to improve grazing management.

**Land Use Applicability**

Conifer Forest; Conifer-dominated Mixed Forest

**Benefits**

This bundle of enhancements is focused on activities that will improve forest health through prescribed burning, in conjunction with managing grazing to benefit wildlife, soil quality, and the forest understory. Implementing these activities together will create a synergy that is expected to provide more conservation benefits than would be expected from the individual activities.

Applicants that choose to implement this bundle of activities will receive an increase in ranking and activity points.

**Conditions Where Enhancement Applies**

This enhancement applies to all conifer and conifer-dominated forest land use acres.

**Criteria**

**Bundle rules**

1. All of the activities in the bundle must be implemented. However, if an applicant is already implementing 1 or 2 of the activities, they are still eligible for the bundle and only need to implement the remaining 3 or 4 activities.
2. Applicants will be required to install all enhancements in the bundle wherever they are needed on the applied area.
3. Other enhancements cannot be substituted for those in the bundles.
4. Applicants choose the acres of their operation where they want to implement the bundle. If the applicant chooses to implement the activity on only a portion of their operation, their ranking and performance points will be reduced proportionally.

- 5. The amount of the bundle that can be scheduled cannot exceed the most limiting individual “system” enhancement scheduled.

Follow the criteria in the respective enhancement activity sheets to implement each enhancement.

For this bundle implement PLT21, or PLT28, or PLT31 depending on site conditions, and the following four enhancements, ANM09, ANM11, ANM38, and PLT02, according to their respective criteria on all of the area selected for bundle application.

**Adoption Requirements**

This enhancement is considered adopted when rules # 1 and 2 from “Rules for Enhancement Activity Bundles” above have been fulfilled.

**Documentation Requirements**

Follow the documentation requirements in the respective enhancement activity sheets to document the implementation of each enhancement in the bundle.

In addition, document the actual amount, fields and when each enhancement in the bundle is implemented:

<b>Enhancement Activity</b>	<b>Amount (unit)</b>	<b>Field(s) Number or Name</b>	<b>Year Applied</b>
<b>PLT21, or PLT28, or PLT31</b>			
<b>ANM09</b>			
<b>ANM11</b>			
<b>ANM38</b>			
<b>PLT02</b>			

All enhancements will be implemented in accordance with the Conference Report for the Natural Resources Conservation Service - Sage-Grouse Initiative.
