

Wetland Wildlife Habitat Management

Conservation Practice Specification Sheet Practice # 644

Landowner/Location: _____ Planner: _____

Purpose

To maintain, develop, or improve wetland habitat for waterfowl, shorebirds, fur-bearers, or other wetland dependent or associated flora and fauna.

Application of this practice and other necessary facilitating practices shall result in a Habitat Evaluation Score ≥ 0.5 .

Wildlife or Ecosystem(s) Targeted: _____

(1) Habitat Evaluation Model Used: _____

Before Score: _____ After Score: _____

(2) Habitat Evaluation Model Used: _____

Before Score: _____ After Score: _____

(3) Stream Visual Assessment Protocol (SVAP), if applicable:

Before Score: _____ After Score: _____

Habitat Conditions & Limitations (as indicated by Habitat Evaluation): List limiting factor(s) in order of significance and describe management actions needed to remove or reduce them. Consider food, water, cover, nesting areas, and habitat connectivity.

Existing (Before)	Planned (After)

Practice Specifications: List facilitating practices required to implement this system and describe any additional specifications to achieve habitat management objectives (include job or specifications sheets for facilitating practices as needed):

Wetland Water Management (if applicable):

Water depth planned	Field # or Management Unit	Dates planned depth maintained

Restrictions on disturbance:

Noxious weed and Invasive plant control:

OPERATION AND MAINTENANCE: Annual monitoring of this practice is required to determine: 1) if wetland wildlife habitat goals are being met, 2) if facilitating practices are functioning or need repair, and 3) if modifications are needed.

CERTIFICATION STATEMENT

I agree to the installation and maintenance of this practice as specified above.

Client: _____ Date: _____

I certify that this practice, as installed, meets NRCS standards and specifications:
