**National Supplement to Animal Enhancement Activity – ANM32 – Extend existing filter strips or riparian herbaceous cover for water quality protection and wildlife habitat**

State: \_\_\_\_\_

Participant: \_\_\_\_\_

**Sage-grouse Initiative (SGI)**

**Additional conditions where enhancement applies**

For the Sage-grouse Initiative this enhancement applies to creating new filter strips and riparian herbaceous cover as well as extending existing filter strips or herbaceous cover. For new filter strips (CPS 393) and riparian herbaceous cover (CPS 390) must be planned concurrent with this enhancement.

This enhancement will be implemented in accordance with the appropriate conservation measures as described in the Conference Report for the NRCS' Sage-Grouse Initiative.
