

**Major Changes to Standard
Pumping Plant (Code 533)
March 2008**

1. The Standard issued for use in Virginia no longer contains “how-to” information. It now describes the minimum requirements for the practice. The “how-to” information will be contained in Virginia Engineering Design Note #614 – Watering Facility which is under development.
2. **PLANS AND SPECIFICATIONS.** The DESIGN and CHECK DATA requirements have been revised to reflect a more consistent format from one Standard to another.
