

**Major Changes to Standard
Water and Sediment Control Basin (Code 638)
September 2010**

1. **PURPOSES:** Two purposes in the June 2002 standard were not included in the revised standard since they were not in the NHCP version:
 - Improve the farmability of sloping land
 - Improve downstream water quality.

2. **DESIGN DATA** and **CHECK DATA.** Template items and associated details have been added.
