**VIRGINIA TECHNICAL GUIDE
NOTICE 450-15-420**

June 21, 2013

Purpose: To transmit a new library of 26 erosion-related VA NRCS policy and technical documents and links.

Effective Date: Upon receipt.

Filing Instructions: This collection of policy statements, planning guidance, and links can be accessed electronically in Section I of the Virginia Electronic Field Office Technical Guide under “Erosion Information” at: <http://efotg.sc.egov.usda.gov/treemenuFS.aspx>

Explanation: A new library of 26 erosion-related policy and technical documents and links will now be posted to the Virginia eFOTG (go to Section I, then “Erosion Information”). The most important of these new documents are related to setting up and running RUSLE2. A primary goal is to provide a better source of self-serve guidance for Virginia RUSLE2 users both inside and outside of USDA offices.

To simplify searching and linking to this information, the first document in this erosion resources library is the [Virginia NRCS Erosion Resources Index](#). This document contains a list and description of each of the 26 documents and links as well as direct links to each of these documents.

Contact: If you have any questions, contact Chris Lawrence at 804-287-1680.
