TO: All Users of the Vermont Field Office Technical Guide

VERMONT TECHNICAL GUIDE NOTICE NO. 14

PURPOSE: Notice of revised format County Hydric Soil tables.

EXPIRATION DATE: Upon Receipt

BACKGROUND: These new tables, based on the soil survey legends, are meant to provide comprehensive information on hydric soils in each county. Each soil map unit that has been identified as having hydric soils as a major or minor component is listed. The hydric soils are identified, along with an estimate of the percentage of the map unit that they comprise and other information.

FILING INSTRUCTIONS: File this information in Section II-A, Soils Information, under Hydric Soil Interpretations.

For more information, contact Thom Villars, Soil Resource Specialist, in the White River Jct. Field Office.

Fletcher (Kip) I. Potter
Acting State Resource Conservationist
