MANDATORY DOCUMENTATION WITHIN THE PLAN

- Practice objective, Identification of the extent of practices applied, Location identification, this can be an aerial photo, soils map, reference to the conservation plan map, or a sketch in the plan drawings (legal description is required), Environmental Evaluation NRCS-WA-CPA-052, Documentation of necessary permits – federal, state, tribal, local - as applicable, and Site-specific practice specification

The following additional data are needed for the specific practices listed.

Check Use the Check Box to indicate the Requirements are met.

Table with 2 columns: Requirements and COMMENTS. Rows include Inventory (Benchmark management record, Erosion estimates, Maps, Soil Conditioning Index, Soil Reports) and Design (Completed jobsheet, Identify and delineate conservation management units, Management record). Implementation row: Current/updated management record and resource assessment results to verify resource concerns and client objectives are addressed..

Additional practices [supporting practices] may be necessary to implement, install, operate or maintain this practice. Check the requirements of this practice standard and provide the Practice Documentation Checklist for the necessary supporting practices.

Certification:

I have completed a review of all of the practice documentation and certify the applied practice meets NRCS specifications.
