Introduction

This Technical Note is a directory of plant and seed vendors with updated information from Plant Materials Technical Note 18: *Cover Crop Resources and Seed Vendors for Oregon and Washington* (August 2014) and Plant Materials Technical Note 3: *Cover Crop Seed Vendors for Western States* (June 2018).

Users of this document should note that this is only a partial listing of conservation plant and seed sources (retailers, wholesalers, and nurseries) for portions of Washington, Oregon and Idaho. This directory is not intended to provide a complete listing of vendors or plants adapted to the Pacific and Inland Northwest, and the mention of any vendor does not indicate endorsement by NRCS, nor does NRCS guarantee availability or quality of seeds and plants produced by any vendor listed. No discrimination of other suitable plants is intended. Vendors are broken into two lists (seed and nurseries) and listed in alphabetical order by region.

Revisions to the directory are made periodically. If you are aware of errors in the directory and/or any vendors that sell plant materials who are not listed, please notify the Pullman, Washington Plant Materials Center, 4900 SE Terre View Drive, Pullman, WA 99163, 509-330-5636.
