**FIELD OFFICE TECHNICAL GUIDE (FOTG)
450-VI
AMENDMENT WA35**

Purpose: To announce that the following additions to Section I, will be posted on the Washington State eFOTG web site.

- 1) Engineering Technical Note Index
- 2) Engineering Technical Note # 12: Above Ground High Density Polyethylene (HDPE) Pipe
- 3) Engineering Technical Note # 13: Geologic Hazards - Landslides

Effective Date: This notice is effective upon receipt.

Explanation

Engineering Technical Note Index:

(Addition of Engineering Technical Notes #12 and #13)

Engineering Technical Note # 12:

(Setting forth design criteria for the design of above ground pipe and providing a spreadsheet to assist with analysis)

Engineering Technical Note # 13:

(General guidance for planning work in landslide-prone terrain and for remediating damages following slope failure)

These documents will be posted to Section I of the eFOTG.
