**FIELD OFFICE TECHNICAL GUIDE (FOTG)
 450-VI
 AMENDMENT WA 38**

Purpose:

To transmit the following new and updated conservation practice standards to the Washington State eFOTG.

Section IV

Washington State Documents	Explanation
Monitoring Well (353) - Updated Standard	This is a reissue of an existing standard without modification. The SOW and CPPE have also been reviewed and reissued without modification.

Washington State Documents	Explanation
Water Well (642) - Updated Standard	This is a reissue of an existing standard with minor modifications. Criteria have been added to bring the practice standard into compliance with state law RCW 18.104 and state regulation WAC 173-160. The SOW and CPPE have also been reviewed and reissued without modification.

Washington State Documents	Explanation
Well Decommissioning (351) - Updated Standard	This is a reissue of an existing standard with minor modifications. Criteria have been added to bring the practice standard into compliance with state law RCW 18.104 and state regulation WAC 173-160. The SOW and CPPE have also been reviewed and reissued without modification.

Washington State Documents	Explanation
Well Water Testing (355) - New Standard	Adoption of a new standard, SOW and CPPE directly from the National Handbook of Conservation Practices without modification.

Effective Date: This notice is effective upon receipt.

These documents will be posted to the Washington State eFOTG.

LARRY A. JOHNSON
 State Conservation Engineer
