**FIELD OFFICE TECHNICAL GUIDE (FOTG)
450-VI
AMENDMENT WA 49**

Purpose:

To transmit the following Technical Notes to the Washington State eFOTG.

Section I-B

Washington State Documents	Explanation
Plant Materials Technical Note 20 - Evaluation of Planting Time and Survivability of 16 Forb and 2 Grass Species Native to the Inland Northwest	A new Tech Note summarizing the results of a 7 year experiment conducted at the Pullman Plant Materials Center to determine optimal planting time and survivability of 16 forb and 2 grass species native to the Inland Northwest (MLRA 9). Provides establishment guidelines for use by conservationists, land managers and commercial seed producers. Developed by Pamela Scheinost, Dave Skinner (retired) and Mark Stannard (all from the Pullman, WA Plant Materials Center).

Effective Date: This notice is effective upon receipt.

This document is posted to the Washington State eFOTG.
