DATE 03/07/2016

**FIELD OFFICE TECHNICAL GUIDE (FOTG)  
450-VI  
AMENDMENT WA 70**

**Purpose:**

To transmit the following document to the Washington State eFOTG.

**Section I-B**

<b>Washington State Documents</b>	<b>Explanation</b>
Engineering Technical Note 24	The purpose of this Technical Note (TN) is to help NRCS employees understand and correctly choose and apply the dust suppressant that is appropriate for a particular site, traffic conditions, and climate. In addition, this TN describes the expected performance, limitations, and potential environmental impacts of various treatments.
Update Practice Standard 373 - Dust Control on Unpaved Roads and Surfaces	This practice may be applied as part of a conservation management system to control dust from unpaved roads and other surfaces which is generated by vehicle or machinery traffic, and/or wind.
New Implementation Requirements (IR) – 373 Guidance	

**Effective Date:** This notice is effective upon receipt.

This document is posted to the Washington State eFOTG.

Larry Johnson  
State Conservation Engineer
