

STATEMENT OF WORK

CONTOUR FARMING (330)

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables:

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client
 - c. List all required and/or facilitating practices
 - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Minimum/maximum row grade
 - ii. Critical slope length
 - iii. Erosion calculations
 - iv. Minimum ridge height
 - v. Outlet stability
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to apply the practice. Plans and specifications shall be developed in accordance with the conservation practice standard Contour Farming (Code 330) and documented on the 330 Implementation Requirements Document (Job Sheet 330).
3. Operation and maintenance plan
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations
5. Design modifications during application as required documented on the 330 Implementation Requirements Document.

INSTALLATION

Deliverables

1. Pre-application conference with client
2. Verification that client has obtained required permits
3. Application guidance as needed
4. Facilitate and implement required design modifications with client and original designer
5. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation
6. Certification that the application process meets design and permit requirements

CHECK OUT

Deliverables

1. Records of application
 - a. Actual row grade and ridge height applied
 - b. Extent of practice units applied
2. Certification that the application meets NRCS standards and specifications and is in compliance with any permits documented on the 330 Implementation Requirements Document.
3. Progress reporting
