

STATEMENT OF WORK

CROSS WIND TRAP STRIPS (589C)

DESIGN

Deliverables:

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices:
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client.
 - c. List all required and/or facilitating practices.
 - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Number of and width of trap strips.
 - ii. Location and orientation of trap strips on site map.
 - iii. Width of trap strip and crop interval between trap strips.
 - iv. Vegetative cover selected, seedbed preparation, seed mix and rates (PLS based).
 - v. Orientation of trap strips in relation to direction of erosive winds.
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describe requirements to install the practice. Plans and specifications shall be developed in accordance with the requirements of conservation practice standard 589C Cross Wind Trap Strips
3. Operation and maintenance plan.
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations.
5. Design modifications during installation is documented in the Wisconsin NRCS Job Sheet, Cross Wind Trap Strips (589C), or other documents that include all plans and specification requirements.

INSTALLATION

Deliverables

1. Pre-installation conference with client.
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications including applicable layout field notes.
4. Installation guidance as needed.
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the installation process and materials meets design and permit requirements.

CHECK OUT

Deliverables

1. Records of installation:
 - a. Extent of practice units applied.
 - b. Actual materials used.
2. Certification that the installation meets NRCS standards and specifications and is in compliance with permits requirements.
3. Progress reporting.
