

CRP Owner: \_\_\_\_\_  
 Haying Producer: \_\_\_\_\_  
 This plan is for CRP-1 No.: \_\_\_\_\_  
 Farm Number: \_\_\_\_\_  
 Tract Number: \_\_\_\_\_  
 Field Number(s): \_\_\_\_\_  
 Total Acreage: \_\_\_\_\_  
 Total to be Hayed: \_\_\_\_\_

### PURPOSE

To provide hay harvest during a limited time period on eligible Conservation Reserve Program fields.

### REQUIREMENTS

Participants must request authority for haying of CRP acreage from the Farm Service Agency (FSA) each year prior to haying and follow this plan. Participants may not hay and graze the same acreage in the same year. Haying cannot occur until 12 months after the vegetation is considered fully established. Producers can hay or graze the same CRP acreage only once every 3 years.

Producers will not make hay on land that is within 120 feet of a stream or other permanent water body.

For managed haying requests on or after September 26, 2006, producers can hay only one time between **August 2 and September 15**.

Bales must be removed by **September 30**.

If the cover fails as a result of haying, the producer must re-establish the CRP cover at their own expense.

### ELIGIBLE CRP PRACTICES

- CP1: Establishment of Permanent Introduced Grasses and Legumes
- CP2: Establishment of Permanent Native Grasses
- CP4B: Permanent Wildlife Habitat – Corridors
- CP4D: Permanent Wildlife Habitat
- CP10: Vegetative Cover – Grass – Already Established
