## WISCONSIN FIELD OFFICE TECHNICAL GUIDE NOTICE FOTG WI-63

The following revisions to the Wisconsin FOTG have been posted on the Wisconsin e-FOTG website:

### Section IV

- **Index**
- Standard 313, Waste Storage Facility
- Standard 309, Agrichemical Handling Facility
- Construction Specification 3a, Earthfill (Ditch Fills or Partial Filling)
- Construction Specification 4, Concrete
- Construction Specification 50, Organic Fill for Ditch Fills or Filling
- Construction Specification 51, Organic Fill for Embankments and Ditch Plugs

### Explanation of Changes/Revisions:

#### Section IV

- Standard 313 has minor revisions to:
  - include the term embedded waterstop similar to Construction Specification 4, Concrete
  - clarify the responsibility for inspection of waterstop installation
  - added the ASTM references for PI and % Fines to the Tables where needed
- Standard 309 now includes that the sump is poured continuously with the pad as required in State Code
- Construction Specification 4, Concrete, has several changes:
  - Additions have been made to the definitions.
  - Batch delivery ticket information is reorganized:
  - Steel reinforcement support and minimum splice lengths was added.
  - A section on expansive waterstops was added.
  - The cold weather concrete section was revised.
- Construction Specification 3a is new.
- Construction Specifications 50 and 51 have minor wording changes to clarify fill material quality and foundation preparation required.
