WISCONSIN FIELD OFFICE TECHNICAL GUIDE
NOTICE FOTG WI-50

The following revisions to the Wisconsin FOTG have been posted on the Wisconsin e-FOTG website:

Section II

- Classification of Conservation Practice Effects on Cultural Resources

Section IV

- Index
- Standard 575, Animal Trails and Walkways
- Standard 322, Channel Bank Vegetation (**Removed**)
- Standard 584, Channel Bed Stabilization
- Standard 326, Clearing and Snagging
- Interim Standard 716, Conservation Power Plant (**Removed**)
- Standard 561, Heavy Use Area Protection
- Standard 500, Obstruction Removal
- Standard 378, Pond
- Standard 521C, Pond Sealing or Lining - Bentonite Sealant
- Standard 572, Spoil Spreading
- Standard 578, Stream Crossing
- Standard 600, Terrace
- Standard 568, Trails and Walkways
- Standard 620, Underground Outlet
- Standard 638, Water and Sediment Control Basin
- Standard 642, Water Well
- Standard 351, Water Well Decommissioning
- Statement of Work, Standard 322, Channel Bank Vegetation (**Removed**)
- Statement of Work, Standard 584, Channel Bed Stabilization
- Statement of Work, Standard 326, Clearing and Snagging
- Statement of Work, Interim Standard 716, Conservation Power Plant (**Removed**)
- Statement of Work, Standard 521C, Pond Sealing or Lining - Bentonite Sealant
- Statement of Work, Standard 568, Trails and Walkways
- Statement of Work, Standard 620, Underground Outlet
- Statement of Work, Standard 642, Water Well
- Statement of Work, Standard 351, Water Well Decommissioning

Section V

- Conservation Practice Physical Effects worksheet - Standard 322, Channel Bank Vegetation (**Removed**)
- Conservation Practice Physical Effects worksheet - Standard 584, Channel Bed Stabilization
- Conservation Practice Physical Effects worksheet - Standard 326, Clearing and Snagging
- Conservation Practice Physical Effects worksheet - Interim Standard 716, Conservation Power Plant (**Removed**)
- Conservation Practice Physical Effects worksheet - Standard 521C, Pond Sealing or Lining - Bentonite Sealant
- Conservation Practice Physical Effects worksheet - Standard 568, Trails and Walkways
- Conservation Practice Physical Effects worksheet - Standard 351, Water Well Decommissioning

Section II:

- The Classification of Conservation Practice Effects on Cultural Resources has been updated to include Standard 326, Clearing and Snagging. Standard 322, Channel Bank Vegetation, and Interim Standard 716, Conservation Power Plant have been removed.

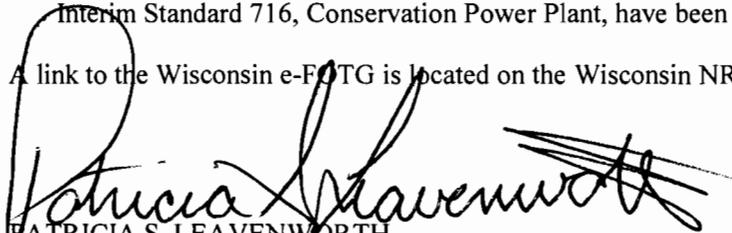

Section IV:

- Standard 575, Animal Trails and Walkways, has had minor revisions to coincide with the revised national standard.
- Standard 322, Channel Bank Vegetation, has been removed from the FOTG.
- Standard 584, Channel Bed Stabilization, has had minor revisions to coincide with the revised national standard. The title has also changed.
- Standard 326, Clearing and Snagging, is a new standard.
- Interim Standard 716, Conservation Power Plant, has been removed from the FOTG.
- Standard 561, Heavy Use Area Protection, has had minor revisions to coincide with the revised national standard.
- Standard 500, Obstruction Removal, has been revised in conjunction with the national standard.
- Standard 378, Pond, has had minor revisions to coincide with the revised national standard.
- Standard 521C, Pond Sealing or Lining - Bentonite Sealant, has had minor revisions to coincide with the revised national standard. The title has also changed.
- Standard 572, Spoil Spreading, has had minor revisions to coincide with the revised national standard.
- Standard 578, Stream Crossing, has had minor revisions to coincide with the revised national standard.
- Standard 600, Terrace, has had minor revisions to coincide with the revised national standard.
- Standard 568, Trails and Walkways, has had minor revisions to coincide with the revised national standard. The title has also changed.
- Standard 620, Underground Outlet, has had minor revisions to coincide with the revised national standard.
- Standard 638, Water and Sediment Control Basin, has had minor revisions to coincide with the revised national standard.
- Standard 642, Water Well, has had minor revisions to coincide with the revised national standard.
- Standard 351, Water Well Decommissioning, has had minor revisions to coincide with the revised national standard. The title has also changed.
- A Statement of Work has been added for new Standard 326, Clearing and Snagging.
- Statements of Work for Standards 521C, 584, 568, 620, 642, and 351 have had minor revisions.
- The Statements of Work for Standard 322, Channel Bank Vegetation; and Interim Standard 716, Conservation Power Plant, have been removed from the FOTG.

Section V:

- The Conservation Practice Physical Effect worksheet has been added for the new Standard 326, Clearing and Snagging.
- Conservation Practice Physical Effect worksheets for Standards 584, 568, 521C, and 351 have been revised to reflect changes in the titles of these standards.
- The Conservation Practice Physical Effect worksheets for Standard 322, Channel Bank Vegetation; and Interim Standard 716, Conservation Power Plant, have been removed.
