WISCONSIN FIELD OFFICE TECHNICAL GUIDE
NOTICE FOTG WI-8

Section I of the Wisconsin FOTG has been revised to include Streambank Erosion information and has been posted on the Wisconsin e-FOTG website under Erosion Prediction.

This section has been added to provide information for quantifying streambank erosion. Procedures for field measurement/estimate, determining eroding areas, average annual lateral recession rates, and volume weight conversions are included.

A link to the Wisconsin e-FOTG can be found on the Wisconsin NRCS web site at <http://www.wi.nrcs.usda.gov/technical/>.
