Section III – Resource Concerns – Resource Concerns Checklist – April 2016

Changed to portrait style at the request of field staff. Requests to have the document pre-set to print double sided and flip on the short side to make the document easier to read while fastened in a 6-part folder could not be accommodated. The user will need to set this print option locally as it cannot be preset.

Pasture - Resource Concern 24 – Degraded Plant Condition – Excessive Plant Pressure – The following assessment level statement was added: PCS- Percent desirable species ≥ 4 was added

All landuses associated with Resource Concern 23 – Degraded Plant Condition – Inadequate Structure and Composition – The assessment level question was changed to: Does 70% or more of the plant community contain adequate diversity, composition and structure to support the desired ecological functions?
