**Remove WV Conservation Practice Standards and Statements of Work (SOW)**

Remove and archive the following practices:

Irrigation Water Conveyance, Aluminum Tubing Pipeline (430AA) –August 2006

Irrigation Water Conveyance, High Pressure, Underground Plastic Pipeline – May 2004

Irrigation Water Conveyance, Low Pressure, Underground – May 2004

Grassed Waterway – October 1996

**Effective Date:**

Upon Receipt

**Note:** The conservation practice standards Irrigation Water Conveyance, Aluminum Tubing Pipeline (430AA) –August 2006, Irrigation Water Conveyance, High Pressure, Underground Plastic Pipeline – May 2004, Irrigation Water Conveyance, Low Pressure, Underground – May 2004 have been replaced with conservation practice standard Irrigation Pipeline (430).

All of the updated materials are on the FOTG at <http://nrcs.usda.gov/technical/efotg> , then access the eFOTG US map, select WV, then select the county of interest on the county locator map and then to the table of contents (located on the upper left quadrant of the screen) labeled eFOTG. Section IV contain subsections A. Non-Practice Statements of Work; B. Technical Notes; C. Conservation Practices which include the new and revised conservation practices and D. Tools. Section IV includes archived Conservation Practice Standards and Materials.

If you have any questions or concerns, please contact Patrick Bowen, State Resource Conservationist at (304) 284-7579 or Angela Greene, State Conservation Engineer at (304) 284-7561.
