**New/Revised/Removed Conservation Practice Standards**

None

**Statements of Work**

None

**New/Revised Job Sheet, Technical Notes, Worksheets, Guide, O&M, Specification, Check Out, other**

Resource Concerns - Resource Concern Checklist – January 2016 – This checklist replaces older individual land use checklists that were fillable PDFs. This version is in an Excel spreadsheet. Forms for all land uses can be accessed by the tabs at the bottom of the spreadsheet. The land uses listed are the ones currently being used in Toolkit and described in the current National Planning Procedures Handbook (NPPH). There is a separate tab on the spreadsheet which contains the land use definitions. This version has also been linked to the 2016 Conservation Practice Physical Effects (CPPE) which can also be found in Section V of the WV FOTG. Users can now see whether selected practices will have a positive effect on an identified resource concern. In addition an attempt was made to correct all known errors on the previous checklists and provide clarity where requested.

National and State Resource Concerns and Planning Criteria – October 1, 2013 – Replace existing file with a more legible version

**Archived Materials**

- Resource Concerns – Resources Concerns Checklists – Associated Ag Land – August 2013
