

RESOURCE CONCERNS

Animals

Habitat

- a. **Domestic Animals** – Quantity and quality of food or cover do not meet the needs of the livestock.

Quality Criteria: Quality and quantity of food or cover is adequate to meet nutritional needs and cover is adequate to maintain health based upon meeting Prescribed Grazing Standard (328A) criteria.

- b. **Wildlife** – Does not provide quantity and quality of food and cover to meet the requirement of the species of concern to the landuser.

Quality Criteria: Habitat is managed to meet wildlife habitat standards 644 or 645 in Section IV, FOTG.

Water

- a. **Quantity and Quality of Drinking Water** – Adequate quantities of water of required quality are not provided for livestock.

Quality Criteria: Water supply is adequate, of sufficient quality and is properly distributed to meet daily needs.
