

**OPERATION AND MAINTENANCE PLAN
LIVESTOCK CONFINEMENT FACILITY
CODE 770**

Landowner/Operator _____

Job Location _____

Prepared By _____ Date _____

OPERATION AND MAINTENANCE ITEMS

The livestock confinement facility was designed and installed as a heavy-duty, permanent, structural facility utilized to confine animals for calving, backgrounding, feeding, and/or other type of animal management. The life of this practice can be assured and usually increased by developing and carrying out an effective operation and maintenance program. An effective operation and maintenance program includes:

- Inspect the confinement facility regularly. Inspect the perimeter of the facility daily during periods of heavy stocking.
- Promptly repair or replace damaged components of the confinement facility.
- Remove and discard all broken material and hardware.
- All repairs and maintenance shall be completed in a manner to ensure the safety of workers in relation to overhead power lines.
- Wooden structures painted for preservative treatment shall be repainted as needed to maintain complete treatment coverage.
