

**STATEMENT OF WORK**  
**Residue and Tillage Management, Mulch Till (345)**  
**Wyoming**

**These deliverables apply to this individual practice. For other planned practice deliverables, refer to those specific Statements of Work.**

---

**DESIGN**

---

**Deliverables:**

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices
  - a. Practice purpose(s) as identified in the conservation plan.
  - b. List of required permits to be obtained by the client
  - c. Practice standard criteria-related computations and analyses to develop plans, specifications and operation and maintenance plan including but not limited to:
    - i. Results of NRCS erosion prediction tools or equivalent, and other applicable technical tools to address targeted criteria
    - ii. Planned residue amount
    - iii. Orientation of residue
    - iv. Distribution of residue
    - v. Timing of soil disturbance
    - vi. Other requirements of the conservation practice standard Residue and Tillage Management, Mulch Till (Code 345)
2. Certification that the design meets practice standard criteria and comply with applicable laws and regulations
3. Design modifications during application as required
4. Provide the client written plans, specifications, sketches, and drawings that adequately describe the requirements to install the practice and obtain necessary permits.

---

**INSTALLATION**

---

**Deliverables**

1. Pre-application conference with client
2. Verification that client has obtained required permits
3. Application guidance as needed
4. Facilitate and implement required design modifications with client and original designer
5. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations, and NRCS policies during installation
6. Certification that the application process meets design and permit requirements

---

**CHECK OUT**

---

**Deliverables**

1. Records of application WY- ECS-82
  - a. Extent of practice units applied
  - b. Actual amount of residue present during critical period to meet targeted standard criteria WY- ECS-39
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits
3. Progress reporting
