TECHNICAL GUIDE NOTICE WY - 83

Purpose: This notice transmits the Forage Suitability Group Narratives the Adapted Species list for MLRA 13, 32, 34A, 43B, 47, 48A, 48B, 49, 58A, 58B, 60A, 61, 62, and 64, and the County Soils Listing for the Forage Suitability Groups. The county lists have identified by soil component the Forage Suitability Group and the Land Resource Unit. The list also identifies what MLRA the particular soil is located in for those counties that are covered by more than one MLRA. On the eFOTG, the subsection titled Growth curves has been removed as the growth curves were incorporated into the narrative write-ups.

Effective Date. This notice is effective when received.

Filing Instructions: Where we are no longer required to keep paper copies, the Forage Suitability Group Narratives, Adapted Species and County Soils list are electronically filed in the Wyoming Efortg under Section II, Subsection G, 1, 2, and 3 at this site:

https://my.nrcs.usda.gov/Portal/Technology/tech_guide.aspx

If you wish to print a paper copy out for your office, the information should be filed in Section II of the Field Office Technical Guide under Pasture and Hayland.
